

It's finally Xmas 2021

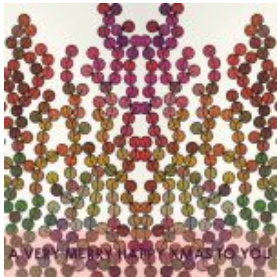

21/12/2021

It's finally Xmas 2021. We got here. All the covid, PhD, work, projects, hassle and stress are done. Free Christmas cards are here too. Download each set, you get A5 and A6 pre-made pdf for printing if you're inclined, plus all the images to just email or message to your fabulous friends. There are two sets, a Generative Art set, taken from my @penworks retweets this year, and a Trad Xmas set, made with my own photos and decorations. Images are below.

Happy Christmas!
