

Site Gallery 2012

19/09/2013

These images were used as full screen backgrounds for the 2012/2013 version of the Penworks.net site. They're a mixture of Maltese and London nature and landscapes. I came back from Malta at the end of July 2012 and immediately missed the sun, and the colour of that world. But then I spent a long day at Hyde Park, and then St James Park, and discovered that if you look, summer is found everywhere. Those London park days seem matched to what I'd seen that year at St Paul's Bay, when I first spent all summer in Malta.
